As with all of ABB's distribution relays, the DPU2000R relay uses the Win ECP software program for communicating to a personal computer. Communication protocols include Modbus or DNP3.0. The accurate metering on the DPU2000R

parameters for easy handling of products - from ordering, engineering and commissioning to reliable operation.

## **RET650 - Transformer protection - ABB Group**

I have used ABB's DPU2000R and TPU2000R in many substations. The TPUs are relatively problem free, but the DPUs

# Access Free Abb Tpu2000r Instruction Manual

have been a nightmare. That's not to say the TPU2000Rs are without problems. We had a false differential trip at a substation a few years ago that ABB indentified as poor quality control from their power supply provider.
